PROJECT QUOTATION

Project Title

ISCC Mass Balance Bookkeeping Web Application for Biomethane / Bio-LNG Trading

Project Description

Development of a customized web-based ISCC Mass Balance Bookkeeping System designed to support the client's biomethane / bio-LNG trading operations and related mass balance bookkeeping requirements.

Development Scope & Key Features

The web application will be developed based on the **requirements, features, workflow, and functionalities as discussed and agreed upon between the client and developer.**

The development scope includes:

- Custom web application development
- ISCC mass balance bookkeeping functionality
- Biomethane / bio-LNG transaction management
- Mass balance and inventory tracking
- User access and authentication
- Data management and record keeping
- Dashboard and relevant system views

- Reporting and data management features
- Other custom features and functionalities **as discussed**
- System testing and deployment

Any additional features or requirements not included in the agreed scope may be subject to additional charges and will be discussed and agreed upon separately.

Project Cost

Description	Amount
Custom ISCC Mass Balance Bookkeeping Web Application Development	RM 4,000.00
Total Project Cost	RM 4,000.00

Total: RM 4,000.00 (Ringgit Malaysia Four Thousand Only)

3-Month Post-Handover Support

The project cost of **RM 4,000.00** includes **3 months of post-handover support** from the date of project handover.

The 3-month support period covers:

- Bug fixing related to the agreed project scope
- Correction of technical issues within the delivered system
- Minor system adjustments related to the agreed requirements
- Basic technical assistance regarding the delivered application

The 3-month support period **does not include**:

- New features or major functionality
- Changes to the agreed system requirements
- Major redesign or redevelopment
- New third-party integrations
- Additional modules or features requested after project handover

Any new features, major changes, or additional development requested after the agreed scope may be quoted separately.

Estimated Project Timeline

Estimated Development Period: [X Weeks / X Months]

The development timeline will depend on the finalization of requirements, availability of necessary information and materials from the client, and timely feedback and approvals during the development process.

Payment Terms

- **50% (RM 2,000.00)** – Upon project confirmation and commencement of development
 - **50% (RM 2,000.00)** – Upon project completion and handover
-

Terms & Conditions

1. This quotation is valid for **30 days** from the quotation date.
 2. The total project cost is **RM 4,000.00**.
 3. The project will be developed according to the requirements and functionalities **as discussed and agreed upon** between the client and developer.
 4. Any additional features, changes, or requirements outside the agreed scope may incur additional charges.
 5. The client is responsible for providing the necessary information, data, requirements, and materials required for development.
 6. The quotation includes **3 months of post-handover support** as specified above.
 7. Support after the 3-month post-handover period, if required, may be subject to a separate maintenance or support arrangement.
 8. Third-party services, hosting, domain registration, server fees, software licenses, API fees, and other external service costs are excluded unless otherwise stated.
 9. The developer will provide the completed web application and perform the agreed handover upon completion of the project.
-

Acceptance

By accepting this quotation, the client agrees to the project scope, pricing, payment terms, and conditions stated above.
